

# Class 3's recap of Autumn 1

We learnt all about Mary Anning and we were even able to draw a still life object (a 3D printed T-rex skull)!

We had a fabulous trip to Beaumanor, where the Year 4s even stayed overnight!

We used drama to perform our book predictions for the Firework-Maker's Daughter.

We made small-scale models of volcanoes!

We investigated soil permeability and watched as water trickled through our layers of soil.
