Writing to inform

L.O. I write a paragraph about what dinosaurs ate.

Most dinosaurs ate plants and had blunt teeth to grind down their food. Apatosaurus had ~~its~~ teeth long and thin teeth. Diplodocus were 14 metres ~~+~~ They mostly ate leaves. Some swallowed stones to help them grind food. Some dinosaurs - carnivores Giganotosaurus ate <sup>any</sup> anything that was in their way. Some dinosaurs were omnivores such as Ornithomimus they ate both they were very speed. Carnivores had very powerful legs so they could catch their prey.
